The RCE Request and amendment received 7/8/2003 have been entered and claims 1-7 are currently pending in this application.

Claims 1-6 are allowable.

5

Claim 7 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

10

New claim 7(b) includes the limitation of ~~without~~ the need of performing a preliminary target microbe growth step.

Applicant states a related patent, 4,925,789, includes the limitation in claim 8, a composition claim, of ~~without~~ the need of performing a preliminary gram negative bacteria growth step.

15

The present specification as originally filed provides no antecedent basis for such a negative limitation. On page 5 paragraph 5 it is stated the growth of the target microbes is accelerated into log phase to lessen the time period needed to conduct the test. It is noted that claims 1-6 are written in ~~consisting of~~ closed-end terminology which would exclude additional steps where claim 7 is directed to ~~comprising~~ open-ended terminology.

20

25

Claim 7 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Each of the following applies in all occurrences.

5        In claim 7(b) ~~without~~ the need of performing~~ing~~ does not define what sort of need might occur and the claim may be more definite if ~~the~~ need of~~ing~~ were deleted.
